What Old Sawyer Said.

Senator Sawyer considered himself personally responsible for a Republican majority in Wisconsin and was quite sensitive on that subject. During the Garfield campaign I was sitting one day in his simple office at Oshkosh when a gentleman, then unknown, but now occupying a prominent position in public affairs, appeared with a letter of introduction from Marshall Jewell of Connecticut, chairman of the Republican national committee, who stated that the bearer had been instructed to visit Wisconsin for the purpose of making a report upon the political situation and the prospects of the Republican ticket. This pricked the old man's pride. He resented, in his good natured way, the invasion of his territory, and I noticed that his face flushed as he read the letter. After looking out of the window for a few moments he looked at his watch, handed back the letter of introduction to his surprised visitor and remarked with deliberation: "There's a train leaving here at 5 o'clock that will get you into New York day after tomorrow morning, and I'll send up one of my boys to see that you get aboard. When you get to New York, you tell Jewell that old Sawyer read that letter and said there was nothing for you to report on. You might add, however, that old Sawyer asked you who was looking after things in Connecticut."—Chicago Record.

White of the Boiled Egg (Cont. to Sat.)
Very few persons can eat the white of a hard boiled egg with any degree of comfort. Eggs are highly nutritious and easy of digestion when lightly or under cooked. The albumen, the white of the egg, coagulates as soon as it is dropped into hot water. The long boiling renders the yolk soft and mealy, but the white becomes tough and indigestible and should be discarded.

NEWSPAPER FRICTION.

There appears to be some friction over the Niagara canal business in England, which should be expected to make an appearance from the source it comes. The treaty as amended is not the treaty which it would like regarding the waterway.

It should be expected that a treaty of the Johnny Hay variety when amended to include what may be termed by Englishmen Americanisms would not be as acceptable as the original Hay article. The friction known to be on the east side of the Atlantic is caused by newspaper articles and is chiefly confined to their columns. It may be said Salisbury does not possess such elevation of feeling over the amended treaty as he experienced over the election of McKinley, when he was present at the dinner given by the Lord Mayor of London.

There is not so much hilarity over the amended treaty as there was over the election from some cause that is not made as plain as it might be made with a few pointed explanations. Among the explanations, should any be made, it would be well to let the people on this side of the water know something about the reserved rights of England in the Clayton-Bulwer treaty that the United States cannot take from it.

If it would not be pleasant, it would at least satisfy the curiosity of the American people, if England newspapers would inform them upon the superior sacredness of the Clayton-Bulwer treaty over other conventions made by nations. The treaty was made over fifty years ago and in all of that time no effort has been made to put the convention or any of its provisions into operation. There are no fixed rights in favor of England arising from any of its provisions, or that arise upon the expenditure of a shilling by England to carry into effect any of its articles.

It has been for all these years in a position to be annulled by either government, but there has not been life sufficient in the convention to direct attention in any positive way to its provisions; yet it has continued from the time it was made to be a menace to the United States' government when an isthmian canal was mentioned for which reason if no other it should have been abrogated many years ago. The Hay-Panama treaty as amended has just been sent by President McKinley to the English government for its approval or disapproval.

When the Washington government has been informed upon the action taken by the British government, opinions about friction will be in this for practical purposes connected with the treaty. It will not make any difference to the United States respecting its future action about the canal whether Salisbury's government approves or rejects the amended Hay-Panama treaty, as the Clayton-Bulwer convention is set aside by the United States through its action.

One of the amendments to the Hay-Panama treaty nullified the Clayton-Bulwer convention, which action by the United States will remain in force without any regard to action taken by Salisbury's government, as either party to the treaty may nullify it without the consent of the other. The nullification of the Clayton-Bulwer convention was the work required by the United States to give life to its future work of construction of the canal on American principles, for the protection of American rights.

It will require a new treaty to compromise any right the United States may possess or that it may hereafter secure for the canal, which will not be made, as the United States government at this time views the present and future of the work in the light of required protection for American commerce in peace or war.

TOWN INCORPORATION.

There continues to be agitation about incorporating the town. The Journal continues to be of the opinion that a corporation is not what is needed till we have learned to govern the town as it should be governed to make a corporation a success. A town corporation, like any municipal organization, should be directed upon business principles to secure success in a way that will benefit the people.

A town organization giving it a municipal government should receive the attention and direction of business men, and like care should be bestowed upon its business that a discreet business man bestows upon his private affairs. The benefits to be derived from municipal government are many, but these benefits are not included in continued litigation over a charter and its final repeal to provide a safety valve for the escape of surplus gas that has accumulated during contention.

When municipal government is made a reservoir for the reception and storage of individual on its in any particular, it is used for purposes not included in the articles of incorporation or in the authority conferred on the town by its charter. The chief difficulty there is to contend with in small boroughs is the little big man who gets into his head by some means that he is the town. It requires men to govern who have sufficient weight and who will use it by sitting on the fellow till the self conceit is crushed out of him, or that will make him see the necessity there is for using it where it will not annoy the town.

California Editor

Condemns Lottery.

The Santa Rosa, Cal., Republican says:

"Lottery companies and people desiring to engage in the lottery business are making strenuous efforts to carry an amendment to the Constitution of Nevada authorizing the maintenance of lotteries in that State. They are being fought inch by inch by the better element of the population, who would prevent the demoralization sure to follow such action.

"It is to be hoped that the scheme will be defeated, not only for the State of Nevada, but for all neighboring States as well. Even in California the gambling spirit does not need any stimulation, and with authorized lottery business on our very borders, it would be greatly promoted. It is to be hoped that the better sentiment in Nevada will prevail against the proposed lottery legislation."

INTERESTING
CONTRIVANCE

The Newmarker Brothers of This
City Receive Letters
Patent.

A near approach to perpetual mo-
tion—that philosophers alone which
has baffled the search of inventions for
centuries—has been discovered by
three Treaske Meadow boys, Henry J.,
Benjamin and Edward J. Newmarker.
This contrivance was patented No-
vember 13, 1900, and a model may be
seen at the residence of John New-
marker near this city. It has been na-
med, "The Air-draught Propelling Ap-
paratus."
A JOURNAL reporter drove out yester-
day to see the invention and found it
in active operation. In fact it has
been in constant motion days and
nights for weeks and will continue to
run until the bearings wear out.
The contrivance consists of a wheel
something similar to the turbine in
principle. A shaft connects it with a
parallel belt wheel. That is all there
is to it—as simple as it is efficient.
The turbine arrangement fits closely
in the bottom of a stovepipe, the stove
being removed and the apparatus rest-
ing on a tripod. The little wheel spins
and hums, making a dozen or more
revolutions per second.
The principle involved is as simple
as the contrivance this article is at-
tempting to describe. Warm air is
lighter than cold and is forced upward.
The air within the room was several
degrees colder than outside, so up the
stove pipe it went, meeting and over-
coming the resistance of the wheel,
just as those little paper pin wheels
we used to make spin around when we
pointed them against the breeze.
Mr. Newmarker will construct a
much larger model and try it in a
larger chimney where he hopes to ob-
tain sufficient power to operate a small
dynamo.
A Merry Dance
by the Pendoites.
Laurel Connell, No. 231, Order of
Pendo, gave a party Christmas night in
Riter's hall.
Nearly four-score people enjoyed the
hospitality of the lodge folk.
This was the first dance held in this
hall, and the excellent appointments of
the rooms and smoothness of the floor
were commented on.
Music was furnished by Messrs. Wil-
son and Cunningham, and Mrs. Sauer,
J. G. Lucy and J. E. Hamp were floor
directors and managers of the event.
Between the numbers on the regular
program there were songs by George
Ward, Mrs. Jennings, Lizette Hoskins,
Mrs. Jones and Miss Christie.
A feature of the evening was a visit
from Santa Claus. Dick Hoffman per-
sonated this benign and philanthropic
old gentleman. He distributed gifts
to all present. Instead of eight rein-
deer he had a well fed sheep to draw
his sleigh. Mary's little lamb was the
here of the occasion.
A bounteous spread was enjoyed at
midnight. The hour was late when the
revelers departed.
May Organize
National Guards.
The prospects are excellent for the
organization of a company of militia
in this city within the next three
weeks. The Reno Wheelmen are tak-
ing the initiative in the matter.
At their meeting last night Frank
Folsom, C. Segraves and John Kieffer
were appointed to obtain the senti-
ment of club members on the matter
and report at the next meeting. If
you want to "give" your name, sex,
age, color and previous condition of
service, should you happen to run
across any member of the committee.
The State will make an allowance of
at least \$480 a year to the company and
the Adjutant-General will furnish uni-
forms, guns and other equipment.
A Losing Speculation.
J. F. Stewart is something of a joker
himself, and he tells with a relish one
that was played on him night before
last.
Frank had a grindstone—Le only
one on the block; the neighbors all
used it. Slowly the circumference of
the stone grew smaller and beautifully
less. Stewart saw the price of a new
one staring him in the face.
He hung up one of those Salvation
Army tin boxes, bearing this inscrip-
tion: "Drop a nickel in the slot and
use the grindstone."
This fund was beginning to assume
proportions. He went out Wednesday
morning to count the contents, when,
behold, the grindstone was missing
and the mercy box was conspicuous
by its absence.
A Good Idea.
Alfred Nelson make the suggestion
that a railroad crossings for pedestrians
and teams should be made on Vir-
ginia street, or if a grade crossing be
impossible, that a bridge be built over
the track. It is unfavorably com-
mented upon by visitors to Reno that
the principal thoroughfare of this city
should be out in two by an impassible
barrier of railroad tracks.

Health in the Pines.
Kinney's Rheumatic and Kidney
Remedy, "K. R. K. R.," an infallible
remedy for rheumatism, diseases of
the kidney and bladder, sciatica and
heart trouble. A California remedy
composed of the pure, essential oils of
the buds of our forest trees—pines, etc.
together with the extract of a plant
healing in its nature—clear as crystal,
chemically pure—small doses giving
quick relief, and in most all cases a
radical and final cure.
The healing, medicinal properties of
these buds are wonderful. Taken inter-
nally this remedy will expel the
poison urea, uric acid and vitiated
phosphoric salts, the causes of rheuma-
tism, lumbago, neuralgia, sciatica and
inflammation of the lining membrane
of the heart, or heart trouble. Will
prevent the change of the pure consti-
tutents of the urine into the poison
sediments, stop the production of
albumen, the cause of Bright's disease;
will expel the saccharine matter, the
cause of diabetes; stop the pain in the
back and sciatic nerves; heal and allay
irritation and inflammation of the kid-
neys and urinary passage; rectify in-
continence and retention of urine,
prostatic trouble; eliminate the cal-
culus sand and gravel and stop their
further production.
The ever increasing sales of this
remedy throughout California, Oregon,
Washington, Idaho, Arizona, Montana
and so many States east, is the evi-
dence of its genuine merit.

Straightened Out.
The difficulties experienced the past
day or two by the E. W. L. & L. Co.,
the Fire Alarm Telegraph company and
the Sunset Telephone company have
been located and straightened out.
The general mixup Monday was
caused by a guy wire of the electric
light company, which had been up for
years, sagging and touching a pri-
mary.
The fire alarm construction crew,
when building their line, guyed the
iron arm on a telephone pole so that it
touched an electric light guy and
caused a direct ground for the electric
light company.
Another ground occurred at R. W.
Parry's stables. It was caused by a
fire alarm current jumping through a
pipe to an arc light guy. Fire alarm
box No. 7 was burnt out.

Are Meant**

By many dealers who claim to
 handle groceries. When they ad-
 vertise GOOD GROCERIES no mention is
 made of PRICE. When price is
 mentioned QUALITY IS OVER-
 LOOKED. Again, sometimes they
 dwell on the virtues of a LARGE
 STOCK. In this case no claim is
 made to carrying FRESH GOODS.
